

Surefed Overview

Surefed Feed, a feed mill located just across the railroad tracks on the north side of Brady Creek, was purchased from Allied Feeds in May of 1997.

Specializing in high quality feeds for a variety of stock animals, Surefed has distribution in eight states including Texas, California, Missouri, Georgia, North Carolina, Oklahoma, Tennessee, & Ohio.

Working closely with respected nutritionist Terry Blair, David Barksdale and Surefed Feed have developed a meat goat feed that has been the primary feed of champion meat goats that have won every major livestock show in the southwest region. Surefed goat feeds have already produced Grand Champion goats at the Texas, Louisiana, and Oklahoma State Fairs.

Furthermore, the company is a major provider of premium deer feeds developed in conjunction with the efforts of Terry Pluenneke.

Our newest initiative is the expanded efforts of our premium show feed program led by Jeff Langemeier.

Surefed Feed is a local business comprised of a feed mill that makes and distributes various feeds to their regional sales outlets and a retail feed store that sells and markets a variety of farm and ranch supplies.
